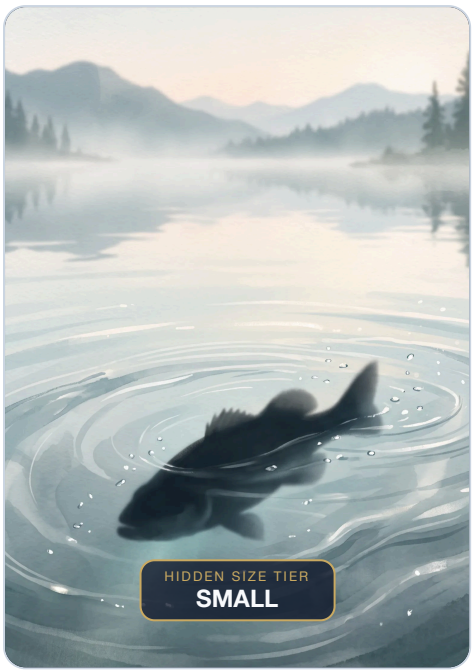
■ 15 standard ■ 20 two-player · Reach 0 = game over

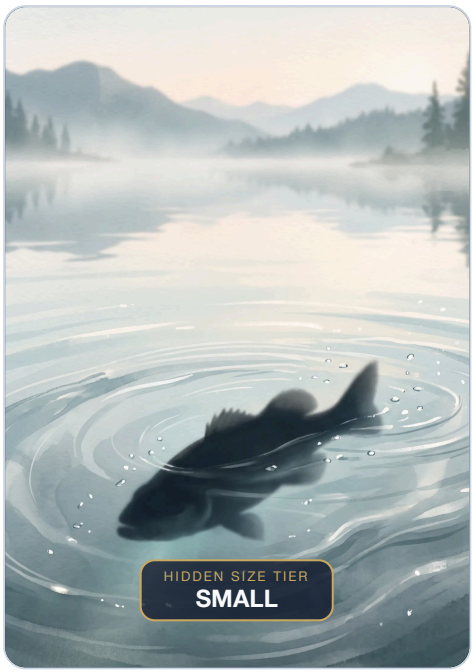
**EACH ROUND**

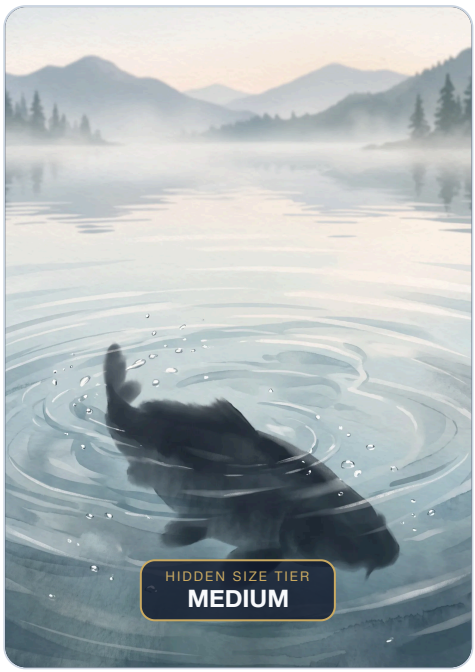
1. **Roll & Distance.** All roll 1 die together; pick a card 1–6 deep. Roll – Distance = power dice. Bank unused: +1 Power each (max 5).
2. **Bait.** All place bait at the same time. Spread out, or stack up to 3.
3. **Priority.** Matching bait wins the spot. Otherwise roll-off, highest total wins.
4. **Catch.** One by one: reveal, roll, beat the target (back).
5. **Kingfish.** If revealed, hits reduce its HP. Reach 0 to land it.

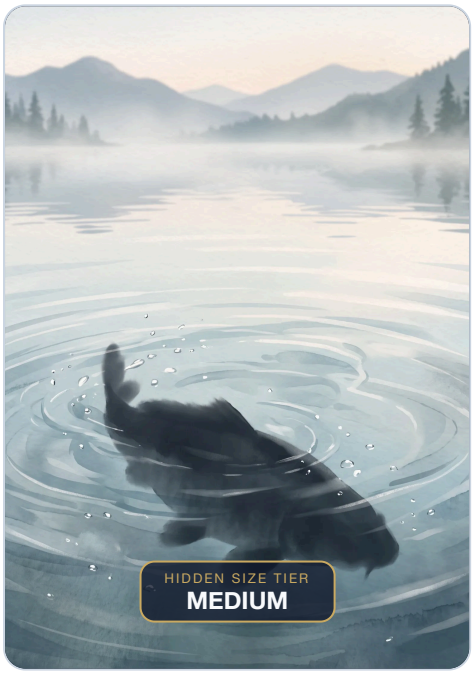
Shared pool: 7 dice

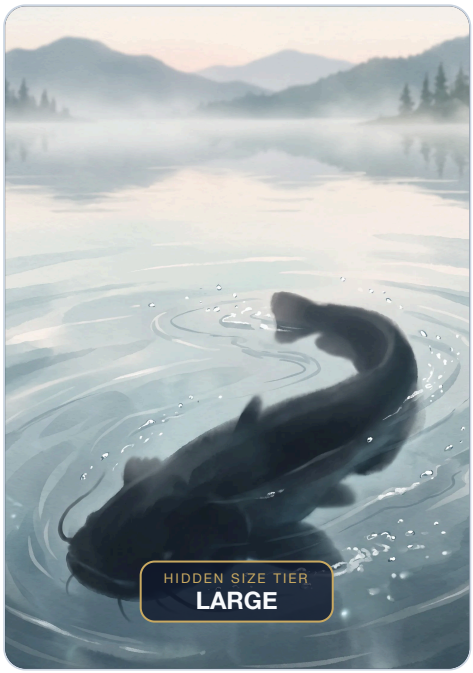
## LAKE STACK SIZE INDICATORS

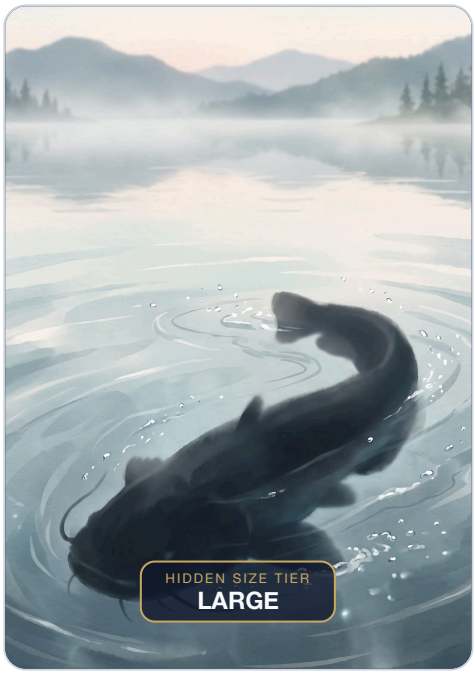


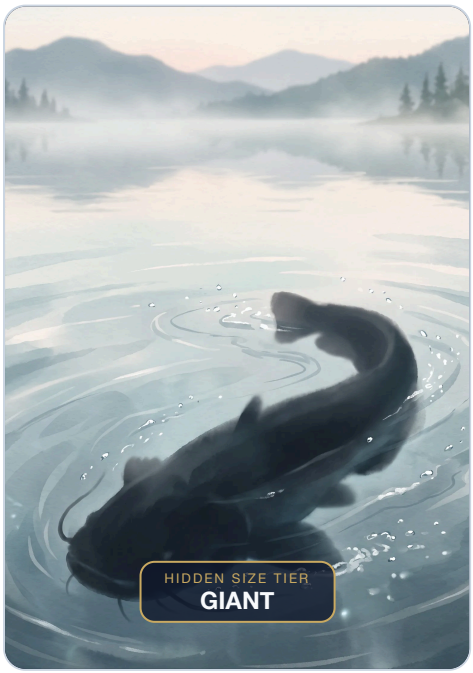


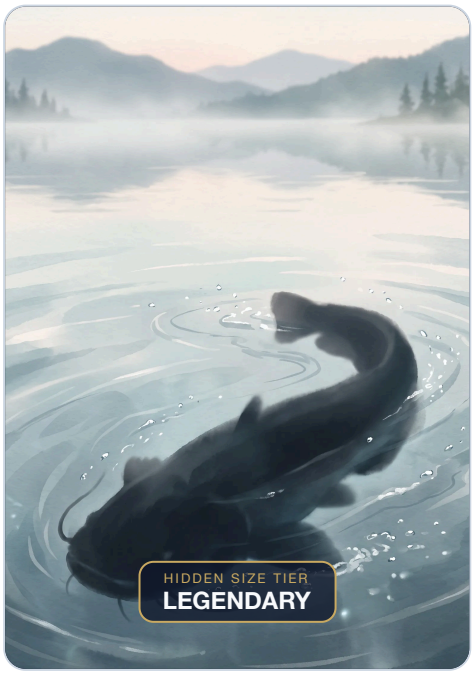












### CATCH & SCORE 釣果

#### CATCH MATH

**Target = Fish Power (+1 if bait doesn't match)**

Dice total must be **strictly more** than the target.

**HIT** Keep the card. Bait returns free.

**MISS** Fish flees to the bottom of the Lake. Pay 1 Power to get your bait back.

#### POWER & BAIT

Spend 1 Power (token ↓) = +1 die on any roll-off or catch roll. Pulling bait back by choice also costs 1 Power.

#### KINGFISH

Damage = Total − Target. Move the HP token down that much. At 0 HP you land it and the game ends. Otherwise it stays face up at the bottom.

#### SETUP the Lake

This card is the board. Each Power token on 3, Kingfish token on 15 (2P: 20). Each angler: 1 Red, 1 Blue, 1 Green bait + score token. Deal 4 of the 7 fish face-down (top). Shuffle the other 3 + Kingfish under them, so it is never in the first 4. Fan the pile: nearest = distance 1.

#### SCORING

Add the VP of your fish (Kingfish card included). 2-player: +5 VP to whoever lands the Kingfish. Most VP wins. Tie: Kingfish catcher wins.

Master Angler wins 2 / 2
